In Vancouver WA

Sketchbook – edition 1

By Sue Clancy

\*The phrase, “Running Around Loose”, refers to going about without a cell phone, a plan or a time frame. It’s an artistic practice of seeing-what-there-is-to-see and recording various discovered delights using only pens and paper in a bound sketchbook. This is a reproduction of that book.

Clancy “runs loose” and then uses her recorded thoughts as a foundation for her fine art and artist books. Her wife and best friend, Judy, is often running loose with her. Occasionally they bring friends – both human and canine – with them.

Sue Clancy's "Running Around Loose" sketching kit: a 3 x 5 inch size sketchbook, a small watercolor set, a gouache color set, some color pencils and several ink pens – everything fits into a small shoulder bag that's about the size of a large hardback book (but much lighter weight).

You can see more of Clancy's fine art and artist books at [www.sueclancy.com](http://www.sueclancy.com)
